# About Venue

---

Dubai, United Arab Emirates

Dubai, one of the seven emirates of the United Arab Emirates (UAE), is bordered by the Emirate of Sharjah to the northeast and lies near the Sultanate of Oman to the southeast. The emirate is located along the Arabian Gulf coast, stretching over approximately 70 kilometers of shoreline. To the south and west, Dubai is bordered by the vast deserts of the Emirate of Abu Dhabi. The city of Dubai is also close to the borders of neighboring emirates, such as Ajman and Umm Al-Quwain, which are situated nearby along the coast. Dubai's proximity to these areas and its central location within the UAE make it a key hub for trade, tourism, and transportation in the region. The emirate's borders reflect its unique blend of coastal and desert landscapes, connecting Dubai to both urban centers and expansive, natural vistas across the UAE.

Dubai's borders reveal a strategic and diverse landscape, both in terms of geography and accessibility. To the northeast, Dubai shares a border with Sharjah, its closest neighboring emirate, forming part of the bustling Dubai-Sharjah-Ajman metropolitan area, which is one of the most densely populated and interconnected regions in the UAE. This border enables a continuous flow of people and commerce between Dubai and Sharjah, where many residents commute daily for work, business, and leisure.
